

To the FDA:

RE: DOCKET NO. 98N-1265

I send this letter as a consumer of healthcare services to register my concern and disapproval of the Memorandum of Understanding as published by the FDA on January 21, 1999.

Synthetic Drug Company pills are not the best for everyone

In its present form, the MOU, as well as the Compounding Section 503A of the Modernization Act, severely restricts the rights of the physicians and patients to obtain healthcare products from the provider of their choice. It also infringes on the rights of compounding pharmacists to serve the public's medical needs. As a healthcare consumer, there should be no restrictions to the delivery of a compounded medication prescribed for me, regardless of where I may live or may travel. The MOU must be amended!

*Please do
Not take this
right away
from me.*

*Mail order
is important
in small towns
and where there
are few choices*

Signed: _____

Barbara Harzman

State of Residence: _____

Illinois

Comments: *When I had all sorts of problems with artificial chemical prescription, I was grateful to find an out of state pharmacy to compound the prescription I needed from Natural substances. I told my doctor who checked it out and I have used the prescription successfully for nearly 2 yrs. I⁺ is not available near me.*
